Philips Automotive Lighting

PHILIPS

sense and simplicity

Welcome to the
Philips Automotive Lighting catalogue
for 2011-2012

At Philips, we make driving safe. Our long tradition of quality and innovation means we stay focused on the one thing that matters: **improving our customer's lives.** We're committed to developing the most reliable, most effective and most cutting-edge automotive lighting solutions available today, which is why we're the choice of all major car manufacturer in Automotive Lighting.

This year, we've got some exciting new products to show off. Following our breakthrough use of LED in the automotive segment last year, we're launching this year 2 new safe and stylish DRL modules – **LED DayLight 4** and **LED DayLight 8** – that keep our customers ahead of the game and give them exactly what they want.

There are also new X-tremeVision that provides 100% more light, BlueVision ultra for the ultimate Xenon effect and that's just the top of the iceberg.

You'll see our commitment to sense and simplicity reflected on every page of this year's catalogue. We've simplified our ranges, improved our packaging and provided more information, explanations and sales tools, to help you answering your customers' needs.

We look forward to building a safer, more stylish and more environmentally friendly future together.

Style & Innovation

(...) their special composition and precision engineering. And our production is meticulously controlled and certified ISO 9001, ISO 14001 & QSO 9000 to the highest ECE standards.

Our key to success is innovation...

The automotive industry moves fast and so do we. We came up with the first high performance halogen lamp, the first environmentally friendly lamp and the first blue lamp. Our constant development is driven by our customers. We make sure our solutions answer drivers needs for safety and comfort as well as sustainability and personal style all with a passion for quality and cutting-edge technology.

... and Philips quartz technology.

Quartz glass is stronger than hard glass and is naturally resistant to sudden changes in surface temperature. This makes Philips quartz glass headlamps perfect for rough driving conditions and ensures their longevity.

As a world leader in healthcare, lifestyle and lighting, Philips integrates technologies and design into people-centric solutions, based on fundamental customer insights and the belief in sense and simplicity. Philips Automotive Lighting is a key part of our Lighting sector, enhancing people's lives by creating innovative solutions and services that make mobility safer, more stylish and more environmentally friendly.

Did you know that we light the Eiffel Tower, the Sydney Opera House, the Sphinx, Big Ben, the Château de Versailles, Printemps Haussmann and London's City Hall?

We make safe feel stylish.

Our customers want performance and innovation but they also want style. Automotive lighting is an extension of your unique image and personality, just like your car. With BlueVision ultra, stand out from the crowd thanks to its ultimate bluish Xenon effect and its ultra bright white light. You can also give a night and day signature to your car with our cutting edge LED DayLight ranges.

LED Solutions

LED DayLight 4 & 8

Designed for safety

- > High power new generation LED
- > Maximum visibility
- > Automatic switch on
- > Simple-click installation

Philips:

- Anticipates the **2011 European directive** that will make compulsory the DRL system integration on new car models
- Offers lighting solutions to increase drivers safety. Powerful Philips OE quality LEDs improve your safety on the road increasing your visibility without compromising on lifetime and energy consumption.

Philips provides you an easy installation click-on system to mount the DRL system designed for your car, should it be a common size car or compact one.

LED Signalling Lamps

Styling & interior LED Lights

- > High power LED
- > Up to 6x more light
- > Perfect geometrical fit

Illuminate the interior of your vehicle thanks to the first Philips LED signaling lamps! This is just the start...

Philips LED Vision provides you Maximum Interior Visibility (4 000 K) and longer lifetime (up to 3 times).

For a xenon effect, Philips **LED BlueVision** provides a 6 000 K with a longer lifetime(x5).

Philips LED lighting solutions consume 13 times less energy while producing a very high light intensity.

A close-up profile of a person's face, focusing on their eyes and nose. They are wearing black safety glasses. The lens of the glasses reflects a bright, circular light source, likely a car's headlight, with some text visible on the reflection. The person's mouth is slightly open, showing their teeth. The background is blurred, showing what appears to be a white and black checkered pattern.

VisionPlus

50% more light

> Comfort & Safety

For those who need more light, VisionPlus goes even further. Its powerful +50% additional light makes it the ideal high performance value proposition. High performance meets high value.

With VisionPlus signalling

- the driver of the car behind you can react 50% faster (i.e. gaining 3 meters' braking distance at a speed of 100 km/h)
- brake lighting is faster and more effective.

X-tremeVision

Maximum Performance
for Maximum visibility

- > 100% more light on the road
- > Maximum brightness

The New X-tremeVision is based on unique filament design, optimized geometry, X-tremeVision uses quartz burner and high pressure gas filling for optimal lifetime. Thanks to this unique technology, X-tremeVision offers 100% more light on the road compared to standard products, offering maximum visibility on the road.

The new X-tremeVision offers 100% more light on the road compared to standard lamp, for maximum safety and visibility.

H1

NightGuide DoubleLife

Optimal contrast

- > See better
- > Anticipate faster
- > Not blind others

NightGuide DoubleLife brings together our most advanced safety technology:

- 1. See better:**
Powerful & bright white (50% more light than a standard lamp) to show you the road ahead.
- 2. Anticipate better:**
The beam is crisp and ice blue which allows you to see pedestrians and cyclists clearer and earlier
- 3. Not blind others:**
Soft anti-glare yellow beam to ensure that oncoming drivers are not blinded.

H1

H4

H7

EcoVision

Energy Saver Long Life

- > Double lifetime
- > +10% more light
- > Less CO² emissions

Do you know that certain energy saving lamps actually provide more light?

EcoVision, the world's most environmentally friendly automotive halogen lamp is the ideal lamp for safer, hassle free driving.

While consumers understand the benefits of a lamp that lasts longer

- meaning less waste and less hassle in changing lamps; they don't want to compromise on their safety, they want a lamp that:
- lasts longer
- providing extra light
- while reducing their energy consumption.

EcoVision is the lighting solution designed for them.

Bus and Trucks Lamps 24 Volt

MasterDuty

Maximum vibration resistance

- > Robust filament
- > High performance quartz glass

MasterDuty 24V headlamps are designed to withstand extreme stress and vibration.

- Increased stiffness of mount and base to provide ultimate protection against mechanical shock.
- A robust double coil filament designed to withstand a wide range of vibration frequencies while remaining stable.
- High-performance quartz glass to withstand temperature and pressure changes. MasterDuty 24V headlamps resist vibration forces up to 13.8 g*.

* gravitational force

MasterDuty BlueVision

Xenon effect

- > When maximum performance meets style

Designed for styling enthusiasts, MasterDuty BlueVision, Philips latest addition, combines Xenon-effect lighting with MasterDuty extreme stress and vibration resistance.

MasterLife

Maximum durability
& lifetime

> Last up to 2.5 times longer*

MasterLife 24V headlamps last up to 2.5 times longer than 24V standard lamps on the market.

*compared to a standard lamp.

The same **maximum vibration resistance features of MasterDuty** is combined with **new lifetime** extension technology (up to 1 800 hours) :

- new filament design based on the MasterDuty double-coil technology
- new, heavier, gas-filling composition designed to reduce tungsten evaporation.

Two Wheeler Lamps 12Volt

More light

XP Moto

Racing Performance

> 80% More light

For riders who won't settle for anything but maximum racing performance XP Moto headlamps illuminate the road further than other lamp on the market. Their equally durable lifetime, ensure that you'll stop only when you want to.

H4

H7

XP Moto offers:

- Up to 80% more light* on the road
- Special gas composition and adapted pressure for maximum racing performance and longest lifetime
- Refined filament designed to produce a laser-like beam
- Chrome base and eye-catching palladium-coated cap.

* compared to a standard lamp

MotoVision

See & be seen

To be truly safe, today's motorcyclist needs to be picked out instantly by other road users. However increasingly heavy road traffic makes it dangerous and uncomfortable.

1. Be better recognized thanks to orange reflection and powerful light.
2. See better on the road:
 - +40% more white light.
 - 10-20 meter longer beam.

H4

H7

H51

S2

ExtraDuty

Vibration resistant

Riding on cobbled roads, parking on pavements, frequent acceleration and braking all expose your lamps to intensive vibration every day.

This vibration is one of the main causes of lamp failure.

Working life is shorter and lamps have to be replaced more often.

ExtraDuty lamps are the answer to the problem.

- With their reinforced filament, and resistance to vibrations up to a gravitational force of 20 g your lamps will last longer.

Premium

30% extra light

ExtraDuty

4x vibration resistant

Special Pack

Philips Automotive Lighting, leader in automotive lighting technology, designs innovative products and packaging.

Packaging combines simplicity, consistency and ease-of-use, thus answering the requirements of today's motorists.

Our product packaging is designed to draw the attention of your customers to the different solutions we propose. It also helps you to identify the products quickly.

Blister Pack

Philips Automotive Lighting blister packs hold one headlighting lamp or two signalling lamps.

Commercial Box

Philips Automotive Lighting commercial packs are dedicated to professionals and designed for easy storage, identification and handling.

Website

www.philips.com/automotive

www.pal-guide.com

We've completely redesigned our website with you in mind.

The new Philips Automotive Lighting site is easier to navigate so you can find the information you need quickly, with useful eTools to help you make the best automotive lighting choice for both safety and style.

And to support our business customers' online activities, we've created eBanners for all our key Philips ranges to animate and generate traffic to their websites.
